

## PRESENTS

**pjm TEST TRAK™**

### Introduction

PJM Test Trak™ is the first OES-NA computer-based training tool designed to assist individuals in their preparation for the PJM Certification Exams. Test Trak™ provides a web-based activity that helps system operators in test taking and also to gain knowledge for answering questions similar to those present on the PJM Generation and Transmission Exams. Test Trak™ is useful for those individuals operating on the PJM system that are required to be certified.

- Changing Answers
- Test Results
- Good Luck
- Round One Quizzes
- Transmission Test #1
- Round Two Quizzes
- Round Three Quizzes
- Transmission Test #2

Features of Test Trak™ include:

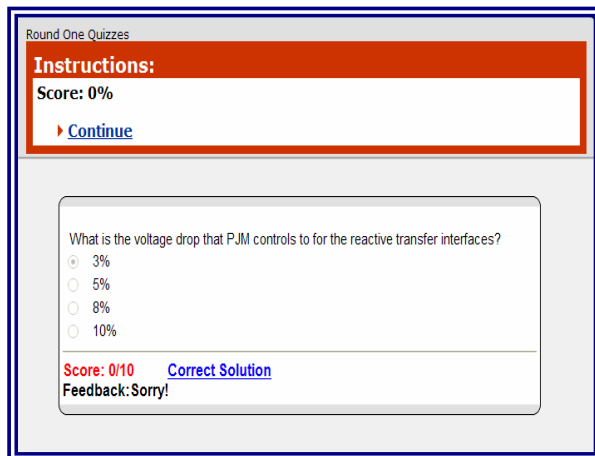

- Test bank of nearly 300 questions
- Questions based on PJM applicable manuals and basic operations on the PJM System
- Quiz groups indicative of the credential content areas
- Separate Test Trak™ programs for the Generation and Transmission credentials
- Individual test item feedback (quiz sections ONLY)
- Multiple opportunities for exposure to questions characteristics of PJM Certification Exam questions

## Test Trak™ Intro

The PJM Test Trak™ Intro provides all users with an important introduction to the features of PJM Test Trak™, including navigating through the activity, quiz and test development, quiz and test scoring, and a recommended utilization. Returning users are not subject to repeating the Test Trak™ Intro and return to the point at which they left off.

## Question Types and Design

OES-NA has developed the test bank questions based on the design used for both PJM and NERC Certification Exam. The question design includes: four option multiple choice, complex multiple choice, scenario related, and negatively worded questions. In addition, the questions were developed for recall, application, and analysis cognitive levels. When answering questions in the Quiz Rounds, the user always receives feedback and is provided with the opportunity to review the correct answer. The tests do not provide feedback, but do provide overall test and individual test item performance.

## Minimum System Requirements

Microsoft Internet Explorer (IE) version 5.5+/FireFox 1+ (Windows 98+) or Netscape 7.2+/FireFox 1+ (MacOS X and Linux) plus audio capability will allow you to take full advantage of the range of features of the site.

## Disclaimer

OES-NA, LLC has taken reasonable steps to assure that questions included in Test Trak™ are comparable to those expected to be on the PJM Certification Exam. However, there is no guarantee either expressed or implied that users of Test Trak™ will pass the Certification Exam based on their performance in Test Trak™.
